2. About us

Meab General Trading is a fully registered Ethiopian agricultural enterprise specializing in seed production, distribution, agrochemical supply, and mechanization services. With a strong technical team and experienced staff, the company provides farmers and agribusinesses with reliable, innovative solutions that enhance productivity and sustainability.

Our portfolio includes improved and climate-resilient seeds, insecticides, fungicides, herbicides, plant growth regulators, water-soluble fertilizers, and micronutrients. We also offer mechanization services and irrigation technologies that improve efficiency, reduce labor constraints, and strengthen agricultural value chains.

By combining high-quality products with technical support and capacity-building training, Meab General Trading empowers farmers, youth, and women to improve yields, increase incomes, and contribute to Ethiopia's food security and agricultural transformation.

Vision

To be a leading agricultural enterprise in Ethiopia, driving sustainable farming, innovation, and food security while empowering farmers, youth, and women.

Mission

To provide high-quality seeds, agrochemicals, and mechanization solutions, combined with technical support and capacity building that enhance productivity, income, and resilience for Ethiopian farmers and agribusinesses.

Core Values

- **Innovation:** Continuously introducing modern agricultural solutions that improve efficiency and productivity.
- **Quality:** Delivering reliable, effective products and services to meet farmers' needs.
- **Sustainability:** Promoting practices that protect natural resources and strengthen long-term agricultural growth.

- **Empowerment:** Supporting farmers, youth, and women to enhance skills, knowledge, and livelihoods.
- **Integrity:** Conducting business ethically, transparently, and responsibly

3. Our products are

Meab General Trading PLC supplies a diverse range of high-quality agricultural products to meet the needs of farmers and agribusinesses:

- **Seed:**
 - Field crops: teff, wheat, maize, sorghum
 - Forage and animal feed: alfalfa, cowpea, lablab, Rhodes grass, Lucina, sesbania
 - Vegetable seeds: a wide range of improved and climate-resilient varieties
- **Agrochemicals:**
 - Insecticides, fungicides, herbicides, and plant growth regulators
- **Fertilizers:**
 - Water-soluble fertilizers and micronutrient fertilizers
- **Irrigation & Mechanization:**
 - Irrigation equipment and mechanization solutions to enhance farm efficiency and productivity

Our Core Business Areas

- **Seed Production and Distribution**

We specialize in producing and distributing high-quality, improved, and climate-resilient seeds. Our seeds are selected for superior germination, disease resistance, and high yield potential, supporting smallholder farmers, cooperatives, and agribusinesses in enhancing productivity and contributing to Ethiopia's food security.

- **Agrochemical Supply**

Agrochemicals are vital to Tigray's agricultural economy, especially for high-value and export crops. We provide affordable, high-quality pesticides, herbicides, fungicides, and fertilizers. Our

expert technical team advises growers on safe and effective application, backed by a strategic distribution network to ensure timely delivery and maximize crop yields.

- **Agricultural Tools Supply**

We supply modern agricultural tools and equipment designed to improve efficiency, reduce labor, and increase productivity. From durable hand tools to advanced implements, our products are tailored to local farming conditions.

- **Mechanization Services**

Our mechanization services include land preparation, planting, irrigation support, and harvesting. By reducing labor constraints and improving operational efficiency, we enable farmers to scale production while maintaining high standards of quality and timeliness.

3. Media
